EVERGREEN TRANSPLANTS FOR LINING OUT

Indicates twice transplanted. * three times.

Our transplants will please you. They have been grown on gravelly soil with plenty of space for development. This assures you of both a good top and root system. The above photograph shows a section of our bedded stock under irrigation system. In addition to this we grow large quantities of lining out stock in field rows.

" " 4 yr.	6-8"	6.50	55.00
" " 5 yr.	8-12"	7.50	65.00

These spruce are a strain of the Norway spruce from seed collected at a premium from the most northern limits of Finland.

Our experience in the Xmas tree game has proven this strain far superior to the ordinary. It makes a slow growing, compact, and most desirable spruce.

Spruce Norway	6-8"	5.50	45.00
" " **	8-12"	10.00	85.00
" " **	12-15"	14.00	125.00
